

Exhibit B2: 4th Cycle Housing Element RHNA Compared to Production

The following is an inventory of 4th Housing Element Cycle Regional Housing Needs Allocations (RHNA) by jurisdiction in comparison with production. Please be aware, the percent achieved only compares total RHNA with total production and does not account for achievement by income level. Therefore, in some jurisdictions, it is possible to have produced 100 percent of total RHNA but not meet RHNA outcomes by income level. In the 4th cycle, very few jurisdictions met their RHNA objectives for low and very low-income.
